Int J Biomed Comput, 26 (1990) 291—292
Elsevier Scientific Publishers Ireland Ltd.

CONTENTS

Volume 26 (1990)

Commentary ..... 1—5
Advanced computerized model of the knee joint
Noise immunity of different QRS complex detecting algorithms
J.G. Llaurado (U.S.A.)

Review Article
Computer-assisted teaching and learning in medicine
R. Klar and U. Bayer (Freiburg, F.R.G.) ..... 7—27

An algorithm for approximating conditional probabilities
B.S. Todd (Oxford, U.K.) ..... 29—38
A computer program to assist in the choice of restriction endonucleases for use in DNA analyses
T.W. Sands, M.L. Petras and J. van Wijngaarden (Windsor, Canada) ..... 39—52
Characteristics of user interaction with a communication system for the non-vocal using a hierarchically structured interface
M.C. Fairhurst and M.Q. Hasan (Canterbury, U.K.) ..... 53—61
Adaptive smoothing: an improved method for spectral analysis and its application to seizure EEG
A.M. Murro, D.W. King, H.F. Flanigin, B.B. Gallagher and J.R. Smith (Augusta, GA) 63—72
Medical informatics: the substantive discipline behind health care computer systems
T.L. Lincoln (Los Angeles, CA) ..... 73—92
Towards validation of expert systems as medical decision aids
M. Fieschi (Marseilles, France) ..... 93—108
Fourier analysis of biliary and pancreatic excretion in man based on data obtained by a duodenal perfusion/aspiration technique
Ó.G. Björnsson, S.B. Stefánson, V.S. Chadwick and S. Björnsson (London, U.K. and Reykjavík, Iceland) ..... 109—123

Book Review ..... 125—126
Calendar of Events ..... 127—128

Commentary ..... 129—133
Corneal modeling as an aid to radial keratotomy
Sounds of the knee: vibration arthrography
J.G. Llaurado (U.S.A.)
Mathematical model for the computation of alveolar partial pressure of carbon monoxide
M. Sharan, S. Selvakumar and M.P. Singh (New Delhi, India) ..... 135—147
Simulating functional interactions in the brain: a model for examining correlations between regional cerebral metabolic rates
B. Horwitz (Bethesda, MD) ..... 149—170
Formula predicting carcinoma-free probability in rats exposed to carcinogen DMBA
S.J. Chung (Morristown, TN) ..... 171—181

Computer-aided decision support in acute abdominal pain, with special reference to the EC concerted action
F.T. De Dombal (Leeds, U.K.) ..... 183—188
Application of artificial intelligence techniques to a well defined clinical problem: jaundice diagnosis
G. Molino, M. Ballarè, P. Aurucci and V.R. Di Meana (Turin, Italy) ..... 189—202
The information value of clinical data
S.M. Lavelle and B. Kanagaratnam (Galway, Republic of Ireland) 203
Teaching field potentials: a microcomputer simulation of the nerve action potential in a bidimensional conductor
E. Soto and R. Vega (Puebla, Mexico) ..... 211—220
Calendar of Events 221

Commentary ..... 223—228
Computer simulation of irradiation schemata for tumorous spheroids
Median frequency of ECG for estimating downtime in ventricular fibrilation
J.G. Llaurado (U.S.A.)
Telecommunication in medicine — the 3I project
A. Hasman (Maastricht, The Netherlands) ..... 229—236
Reduced gradient bubble model
B.R. Wienke (Los Alamos, NM) ..... 237—256
Formulas predicting the percentile of heart weights by body weight in subjects from birth to 19 years of age
S.J. Chung (Morristown, TN) ..... 257—269
Image analysis of biological systems with microcomputers
S.S. Mantripragada, V.M. Huynh and H.B. Fackrell (Ontario, Canada) ..... 271—281
Book Review ..... 283—284
Subject Index Volume 26 (1990) ..... 285—288
Author Index Volume 26 (1990) 289
Contents Volume 26 (1990) ..... 291—292
